

OPERATIONAL MEDICINE: NOT JUST A FAR-FORWARD CONCEPT

March 20, 2020

Learning Objectives:

- Be able to effectively apply tourniquets to bleeding extremities and be familiar with management of junctional hemorrhages.
- Use POCUS and TEE to guide resuscitation in the undifferentiated patient in shock.
- Know transfusion triggers and be familiar with the process of implementing a walking blood bank.
- Engage in hands-on learning with the ER-REBOA catheter in the management of the uncontrolled hemorrhagic shock patient with abdominal trauma.
- Apply concepts learned in didactic sessions in resident SimWars competition!

Craig Joint Theater Hospital Trauma Bay

Landstuhl Regional Medical Center
