

2021 GSACEP Board of Directors Ballot
Secretary Treasurer Candidate Statement

David McClellan, MD, FACEP

I have been Secretary Treasurer, of GSACEP, for over a decade. During this time we have undergone enormous changes and have come from an organization that did not have enough money in the bank to fund the next years' operations to our current state of sufficient assets to cover all desired programs, outreach, conferences and communication needs. We provide scholarships and travel reimbursements; which have become very important in the day of reduced sponsored travel. Our commitment to resident involvement in the chapter is without peer.

What do you think the biggest challenge facing GSACEP members is today? How would you tackle that challenge?

We are a very popular asset to the operational forces. In this time of high operational tempo, burn out is quite the risk and stressor. I also think skill erosion of younger EPs are in lower acuity/volume duty stations is a problem we have struggled with for an extended period of time.
